

Alaska Native Plant Society 2002 Field Trip Schedule

General Information:

The purpose of the Alaska Native Plant Society (ANPS) field trips is to enjoy our Alaskan plants in their native habitats. The trips are designed to explore a variety of plant communities for educational and appreciative values. Hikes are leisurely paced to allow plenty of time for plant observation. Trips will be held rain or shine --- Be prompt. Check each trip to see if reservations are necessary. Remember, there is a \$5.00 per visit (or \$25 for annual pass) usage fee for some Alaska State Parks collected at the entrance. (Eagle River Visitor Center has a fee of \$5, free if you are a member of the Center.) Arctic Valley has a \$5 fee that benefits the Ski Association.

Please read the individual trip listings to determine the level of difficulty, allotted time and special requirements for each trip.

Trip leaders: telephone numbers are provided and they are happy to answer specific questions about their trips. **For out-of-town trips (Kenai Peninsula, Fairbanks, etc.) please call the leader** a few days before the outing, as unforeseen events can come up and plans may change.

Items to Bring:

All trips require sturdy hiking shoes, drinking water (it is unsafe to drink stream water anywhere), raingear, warm clothing and insect repellent. A hand lens is helpful for up-close plant identification. You may also wish to bring your camera, binoculars, field notebook, and lunch or snack.

Caution:

These are NOT plant collecting trips. Digging plants and/or collecting specimens is strongly discouraged by ANPS. Collecting is illegal in many of the locations that we will visit.

Meeting Place:

Unless specifically noted in the field trip description, the common meeting place for ANPS field trips is the southeast corner of the Sears Mall parking lot, located at the intersection of Benson Boulevard and the New Seward Highway. Trip leaders will wait a few minutes for latecomers, but please be prompt.

Thank You to Field Trip Leaders:
