

A Checklist of Flora from 2013 Nome Field Trip

This list was created from range maps in Hulten's 1968 *Flora of AK and Neighboring Territories*. It is sorted by scientific names consistent with the 2020 Flora of Alaska Project. An 'x' indicates plants observed on the 2013 Alaska Native Plant Society trip to Nome led by Anjanette Steer.

The Alaska Native Plant Society is an organization founded in 1982 to promote awareness, education and preservation of Alaska native flora. Learn more at our website: <https://aknps.org>.
